

[KIZEI]®
ARMORED TO FACE THE DIRT

The first spherical roller bearing with metallic shields

9400 W. 55th Street • Merriam, KS 66203
Phone: 913.677.3151 • www.ibtinc.com

Features and benefits

1. Nitrided steel shields affixed to the cage on both sides of the bearing keep contamination out and retain grease for longer bearing life
2. Standard ISO dimensions with offerings in both straight and taper bore, as well as standard and C3 clearance, for easy interchangeability with standard 22200 series bearings
3. ULTAGE design provides superior performance with maximum load and speed ratings
4. Lubrication hole and groove on outer diameter for easy lubrication
5. Easy-to-check internal clearance requires no special equipment
6. Similar misalignment capability as standard open spherical roller bearings

1) "K" indicates bearings have tapered bore with a taper ratio of 1:12.

ULTAGE®

The ULTAGE Advantage

Combining premium-grade materials, optimized design and precision manufacturing, ULTAGE is the new generation of high-performance bearings from NTN that delivers unmatched service life, the highest limiting speeds and the best load capacities on the market to maximize the productivity of your equipment.

Encompassing a wide variety of key bearing types such as spherical roller, cylindrical roller, tapered roller, heavy-duty mounted roller, angular contact and radial ball bearings, the ULTAGE line of superior, high-performance bearings from NTN delivers:

- **Extended service life** for better return on our end-users' investment.
- **Greater performance**, longer production and less downtime.
- **Dependable product availability**, thanks to a wide, robust distribution network.
- **Extras that go beyond** a standard offering, including on-site and web-based technical training, installation support, digital resources and more.

Beyond Bearings

Training. Installation Support. Trouble-shooting. And more.

When you choose NTN, your team is equipped with all the necessary tools and resources to get the job done right. From installation to problem-solving, we'll be there with the hands-on support you need to take on your toughest challenges. This includes extra services such as:

Technical Training Unit

On-site, mobile training unit offering specialized, hands-on instruction from NTN engineers

Product Training School

Three days of in-depth instruction from NTN engineers at headquarters
