

ISOSTATIC™

LEADERS IN BRONZE and TU BEARINGS

BRONZE BEARINGS

Since 1982, Isostatic has become the leading provider of standard and made-to-order bronze bushings and related bearing products in North America. We have accomplished this by offering the largest selection of high quality inch and metric sizes, available for quick shipment, at competitive prices through our nationwide network of local, knowledgeable and experienced IBT distributor partners.

■ Custom Bearing Solutions

- High load capacity
- Wide temperature range
- INCH and METRIC sizes

TU/TP™ STEEL-BACKED BEARINGS

Isostatic offers its full line of TU™ Steel-Backed, PTFE lined, self-lubricating bearings to meet performance demands dependably and economically. TU/TP™ bearings are available in Sleeve, Flange, and Thrust Washer designs. Also available from Isostatic Industries are TP™ Lead-Free Steel-Backed, PTFE lined self-lubricating bearings.

■ TP™ LEAD-FREE

- Temperatures: -328° to +536° F
- Speeds: 1,000 fpm dry and 1,900 lubricated
- INCH and METRIC sizes
