

# Long B Couplers

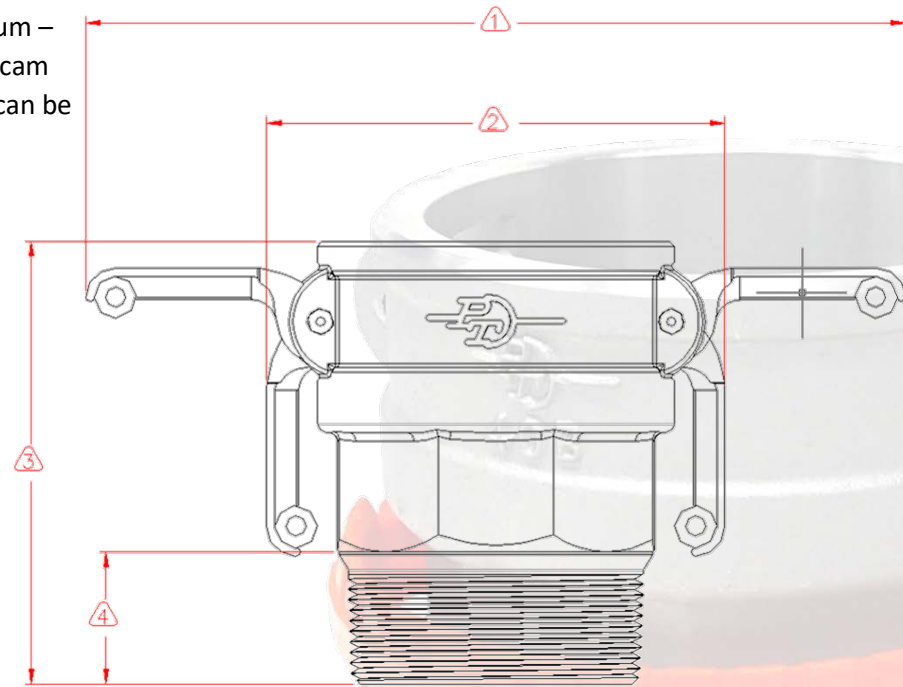

Made in the USA

PT Coupling's **NEW** Long B Couplers have an optional port, allow for easier assembly in tight areas, and allow for various fitting configurations for applications that require threaded ports.

**Made in the USA**, PT's **NEW** Long B Couplers are made from high quality A356-T6 Aluminum – ensuring durability and lightweight. PT's Long B Couplers allow for easier camming of the cam arms in tight areas, they can be machined with a port for sampling/pressure gauges, and can be used to create different configurations of ported cam and groove fittings.

Call 1-800-654-0320 to quote ported styles.

### Advantages of the Long B:

- Made in the USA from the high quality aluminum, PT's cam and groove products are made to last and to the highest standard.
- Port Ability – PT's Long B Couplers can be machined with a port up to 3/4".
- PT's Long B Couplers can be used with other fittings to create different configurations while utilizing the port. Create CxA's with a Long B attached to a standard A, etc.
