Kaydon slewing ring catalog bearings

Kaydon slewing ring bearings are used in applications where rotation is constant, intermittent, or oscillating. Ideal for:

- Optimal economy in a given envelope dimension
- Heavy-duty applications requiring significant load-carrying capacity
- Designs where precise positioning is critical

Why choose Kaydon slewing ring bearings from SKF?

SKF's investment in state-of-the-art, regional manufacturing in North America means:

- Increased regional capacity
- Easy logistics
- Improved speed to market
- Bearing modifications available to meet application needs
- More sustainable supply chain due to energy saved on transportation and increased use of renewables
- 2-4 week lead time for orders not currently in stock

Kaydon Catalog Bearings Available Now!

RK Series – 390 Catalog Bearings

Size range: 2" to 47" OD

For applications where a large diameter and lighter weight are required.

- Small cranes, booms, and lifts
- Industrial positioners, rotary tables and rotating displays
- Chute swivels
- Stretch wrapping machines
- Bottle filling machines
- Conveyors and related material handling equipment
- Rotating displays

HS Series – 390 Catalog Bearings

Size range: 4" to 66" OD

For a variety of medium to heavy duty applications.

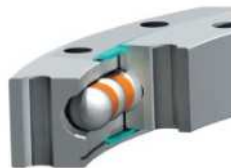

- Cranes and manipulators
- Aerial lifts
- Digger derricks
- Chute swivels
- Lift truck rotators
- Industrial turntable

MT Series – 390 Catalog Bearings

Size range: 4" to 66" OD

For a variety of light to heavy duty applications.

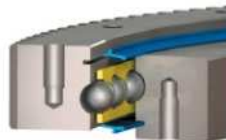

- Lighter duty applications: manipulators, jib cranes, lift-assist devices, work positioners
- Heavier duty applications: truck-mounted cranes, aerial lifts, hoists, small wind turbines, non-precision positioning tables

KH Series – 390 Catalog Bearings

Size range: 4" to 66" OD

For use in applications demanding higher precision.

- Precision rotary index tables
- Radar antennas
- Satellite antennas
- Robots
- Medical equipment
- Machine tool tables
- Any design where the KH bearing features will interface with other precision components

Kaydon's catalog slewing ring bearings are ideal for use in the following industries:

Automation

- Robots

Construction

- Cranes
- Aerial lifts
- Digger derricks
- Chute swivels
- Lift truck rotators

Food and Beverage

- Stretch wrapping machines
- Bottle filling machines
- Conveyors and related material handling equipment

General Machinery

- Industrial turntables
- Manipulators
- Jib cranes
- Lift-assist devices
- Work positioners
- Rotary tables
- Index tables
- Truck-mounted cranes
- Hoists
- Non-precision positioning tables
- Precision rotary index tables
- Machine tool tables

Use Kaydon's Slewing Bearing Selector to search by part number or bearing requirements.
